2023 10th International Conference on Electrical and Electronics Engineering (ICEEE) | 979-8-3503-0429-9/23/$31.00 ©2023 IEEE | DOI: 10.1109/ICEEE59925.2023.00005

Preface

ICEEE 2023

It is our great pleasure to publish the conference proceedings of 2023 10th International Conference on Electrical and Electronics Engineering (ICEEE 2023), which was held in Istanbul, Turkey during May 8-10. It's sponsored by Marmara University; supported by Istanbul Yeni Yüzyıl University and Istanbul Gelisim University. On this occasion, we would like to extend our warmest welcome to all the delegates and participants of ICEEE 2023.

ICEEE 2023 was organized under the theme "Electrical and Electronics Engineering", which reflects our commitment to foster the dissemination of state-of-the-art scientific knowledge in a wide array of disciplines within the purview of teaching and research. We believe that ICEEE 2023 took an in-depth look into the many issues raised by electrical and electronics engineering today, as well as into the challenges and opportunities presented by the new technologies, products and services.

Despite the instability of the current situation in the world, we were very happy to receive high-quality submissions which underwent a rigorous review process. From around 200 submissions, 89 submissions were accepted as full papers for publication and presentation in ICEEE 2023 proceedings. All papers published in the proceedings have been peer reviewed by the reviewers drawn from the international reviewers and external reviewers specific to the subject matter of the paper. After the rigorous peer-review process, the submitted papers were selected based on originality, significance and clarity for the purpose of the conference.

Moreover, we would also like to thank all the contributors to ICEEE 2023, specifically our respected keynote speakers, invited speakers, session chairs, and authors for their continued support and interest in the ICEEE 2023 topics. Kudos to the advisory committee, honorary chairs, conference co-chairs, program chairs, publicity co-chairs, publication chair, local organizing committee, secretary, publicity committee members and all technical committee members.

We hope that the participants have found the ICEEE 2023 conference to be scientifically rigorous and technically sound, enriching and stimulating their personal and professional contacts, and enabling new collaboration links to be established.

Conference General Chair
Mahir Dursun, *Gazi University, Turkey*
